Design Experience

UX/UI Design Student

Designlab | October 2023 – June 2024

- Gained experience in the UX design process, including research, data analysis, persona creation, user flows, wireframing, branding, usability testing, and prototyping through various projects.
- Identified real business problems and learned methods for discussing with stakeholders and making design decisions through hands-on practice.
- Participated in biweekly group critiques, presenting designs and practicing how to give and receive constructive feedback.
- Engaged in over 30 hours of sessions with a mentor who is an active UX designer to focus on and strengthen my understanding of UX/UI design principles.

Other Experience

Sales Stock Associate, Stock Manager | Design & Lifestyle

CIBONE Brooklyn, New York, NY | September 2022 – June 2024

- As an opening staff member, established store systems and ensured smooth store operations and prompt issue resolution. Managed inventory to support sales operations with appropriate stock levels.

Buyer | Cosmetics

Shuei Trading, New York, NY | December 2020 – June 2022

- Handled research and discovery of new sources and communicated regularly with global suppliers and clients to facilitate operations.

Production Manager,

Product Development Coordinator | Textile

NYX Designs, New York, NY | October 2015 – November 2020

- Coordinated with suppliers, factories, and clients to source fabrics, determine printing methods, and manage shipments while ensuring fabric quality meets client needs.

Sales and Service Associate | Fashion

TOMORROWLAND, Tokyo, Japan | March 2014 – August 2015

- Provided clients with information on product features, design, seasonal trends, and styling tips to drive sales and build long-term relationships with the brand and store.
